### TIME TO ACT

Don't Wait for the Fatal Stages of Kidney Disease. Profit By Yale People's Experiences

Occasional attacks of backache, irregular urination, headaches and dizzy spells are frequent symptoms of kidney disorders. It's an error to neglect these ills. The attacks may pass off for a time but generally return with greater intensity. Don't delay a minute. Begin taking Doan's Kidney Pills and keep up their use until the desired results are obtained. Good work in Yale proves the effectiveness of this great kidney remedy.

William Wilson, farmer, R. F. D. No. 5, Yale, Mich., says: "For a long time I was troubled by disordered kidneys. The kidney secretions were irregular in passage and accompanied by a scalding sensation. There was also sediment in them. I tried many ways to get relief but was unable to find anything that would benefit me until I took Doan's Kidney Pills procured at Grant Holden's Drug Store. I am pleased to say that they entirely corrected my trouble and restored me to much better health."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wilson had. Foster-Milburn Co., Props., Buffalo, N. Y.

### Pere Marquette Talks.

On the theory that the people of Michigan have a direct interest in the fate of the Pere Marquette Railroad, and are entitled to know the plans and policies under which every effort is being made to rehabilitate this big transportation system Paul H. King, operating receiver, has prepared a series of advertisements which will appear as "Pere Marquette Talks." In these talks Mr. King will give his views regarding the problems and needs of the railroad as he sees them after a careful study of the conditions.

Publicity of this character is a new thing for a Michigan railroad. The one big reason why Mr. King is making these talks, he says, is to bring the people and railroad into closer touch, and to emphasize the importance of co-operation for mutual benefit. Mr. King has been in charge of the railroad since June 1914, and with the active support of every member of the organization has been working to make the railroad "Co."—that is, provide means for its proper maintenance to give good service. An earnest effort is being made to bring about a reorganization of the railroad on a stable basis, and in that connection it needs the support of the people whose transportation agent it is. The Receiver believes the people served by the Pere Marquette understand that if the railroad can be made to prosper as a "going concern" it will be better able to furnish them the kind of service which will aid them in their respective communities, and that they will, therefore, appreciate an exposition of its condition and needs to enable them intelligently to assist in working out its problems. The first "Talk" will run in our issue of January 13th.
